EXPERIENCE

AMPE

Remote

Mobile Development Intern

June 2020 - Present

- Worked with React Native, TypeScript, and GraphQL to launch a full stack calendaring application in the App/Google Play Store

GEORGIA INSTITUTE OF TECHNOLOGY

Atlanta, Georgia

Undergraduate Teaching Assistant (Media Device Architectures)

January 2020 – May 2020

- Followed established course outline to prepare lessons and convey information and enhance understanding of game development in C
- Improved current grading system through the development of an assignment submission downloader made with Python

ELAVON, INC.

Atlanta, Georgia

Software Engineering Intern

August 2019 – December 2019

- Reduced security threats detected through Fortify Security Software by implementing safer coding solutions in Java using frameworks such as Micronaut and Spring
- Used JUnit framework to create test cases for a refactor codebase, bringing unit-test coverage up from 32% to 71%

PROJECTS/LEADERSHIP

UNIVERSAL STORE

Atlanta, Georgia

Senior Developer and Lead Designer

January 2020 – Present

- Collaborated with a team of developers to create an application allowing users to checkout items from their phones
- Led principle design, user research, and full-stack development in React Native, Apollo, using TypeScript, GraphQL and PostgreSQL

LIV2BGIRL

Atlanta, Georgia

Lead Frontend Developer

February 2020 – May 2020

- Refactored all code from the ground up to be in React.js and Next.js.
- Oversaw all front-end development, set styling standards, and performed code review for the entire team

MUSICMATCH

Atlanta, Georgia

Personal Project

March 2020 – April 2020

- Showcased an understanding of React.js and the Next.js framework to write a serverless full-stack web application
- Launched a responsive application that serves as a custom song recommendation and music compatibility tool between Spotify users
