Web Technologies: React.js, TypeScript, SCSS, React Native, Next.js, Node.js, GraphQL, REST, PostgreSQL
Coding Languages: JavaScript, Python, Java, C (Programming Language), Vim, Git, Command-Line
Software Design: Figma, InVision Studio, Adobe Photoshop, Adobe Illustrator
Languages: Native Spanish

EXPERIENCE

AMPE **Remote**
Mobile Development Intern *June 2020 - Present*
- Worked with React Native, TypeScript, and GraphQL to launch a full-stack social calendaring application in the App/Google Play Store
- Implemented core features, such as chat functionality, event creation, and onboarding flow

GEORGIA INSTITUTE OF TECHNOLOGY **Atlanta, Georgia**
Undergraduate Teaching Assistant (Media Device Architectures) *January 2020 – May 2020*
- Followed established course outline to prepare lessons and convey information and enhance understanding of game development in C
- Improved current grading system through the development of an assignment submission downloader made with Python

ELAVON, INC. **Atlanta, Georgia**
Software Engineering Intern *August 2019 – December 2019*
- Reduced security threats detected through Fortify Security Software by implementing safer coding solutions in Java using frameworks such as Micronaut and Spring
- Used JUnit framework to create test cases for a refactor codebase, bringing unit-test coverage up from 32% to 71%

PROJECTS/LEADERSHIP

UNIVERSAL STORE **Atlanta, Georgia**
Senior Developer and Lead Designer *January 2020 – Present*
- Collaborated with a team of developers to create an application allowing users to checkout items from their phones
- Led principle design, user research, and full-stack development in React Native, Apollo, TypeScript, GraphQL and PostgreSQL

LIV2BGIRL **Atlanta, Georgia**
Lead Frontend Developer *February 2020 – May 2020*
- Refactored all code from the ground up to be in React.js and Next.js.
- Oversaw all front-end development, set styling standards, and performed code review for the entire team

MUSICMATCH **Atlanta, Georgia**
Personal Project *March 2020 – April 2020*
- Showcased an understanding of React.js and the Next.js framework to write a serverless full-stack web application
- Launched a responsive application that serves as a custom song recommendation and music compatibility tool between Spotify users
